

## Quality Booklet Making Equipment

wire stitch heads

### Rynak SF350T Compact Booklet Maker

The Compact 350 offers the end user the perfect solution for today's digital market With touch screen, auto set-up, job programs and wire stitch heads, in a very small footprint.

The Compact 350 offers a wide range of formats with short set up times, particularly suited for the small, medium and frequently changing running lengths in digital and offset printing.

The Compact with trimmer, clamps the spine before trimming and has an added bonus of wire stitch heads for the most economical stapling principle, also allows infinite positioning of staples.
